

Press Release: JUICY ROADKILL

Press release 1 (127 words)

Snotty. Offensive. Straightforward.

That's how it sounds, when JUICY ROADKILL enters the stage with rage in their stomach and love in their hearts, to provide a stunning punk rock show. With their lyrics they rub salt into the wounds of society, while musically expanding punk with new facets. Instead of yearning for the good old times, the music of the four friends is brought alive by fresh ideas, courageous alterations and innovative interludes. Rather than being overwhelmed by the world, they push it forward with their punchy sound. Since 2015 JUICY ROADKILL is found live on stage in order to fire up the crowd vibrantly, filthy and provocatively. In course of that, catchy melodies meet a wild performance on stage and sincere words come upon danceable rhythms.
